

## Reduce laptop and supply expenses by 50%!

The Share-A-Lab™ is the newest innovation in classroom technology storage and security. Designed as an in-wall storage compartment, this rotating cabinet-within-a-cabinet allows 2 classrooms connected by a common wall to access stored laptops.

Wall installation and shared accessibility reduces equipment costs.

Close and lock the Share-A-Lab™ to secure its contents without sacrificing aesthetics.

\*Patent Pending

- Secure, store and charge laptops
- 180° rotation provides cable management
- Additional storage for peripherals provided by bottom drawers
- In wall storage design conserves valuable floor space
- Reduces construction costs for new buildings
- Stand alone units make for great room dividers
