

EarthWalk ChromeCart Series

CC30+

CC40

CC45+

EarthWalk's ChromeCart Series of mobile labs are designed specifically for today's Chrome classrooms.

Available in 30, 40 and 45 user models, ChromeCarts feature individual horizontal storage areas large enough for devices having up to 14" screens. Carts have welded-steel construction with a small, space-saving footprint and optional custom upgrades to fit your specific needs.

SUPPORTS: Windows10 Mac chrome iPad android

ChromeCart not only allows you to store, secure, charge and deploy Chromebooks, it is also compatible with most Ultrabook, Netbook and Tablet devices.

Lab Dimensions

Work Surface Ht: 107.9 cm / 42.5"
Handle Ht: 113.03 cm / 44.5"
Width: 69.22 cm / 27.25"
Depth: 72.65 cm / 28.6"
Weight: Approx.* 81.65 kg / 180 lbs.

* Empty weight—actual weight determined by configuration of system

Compartment Dimensions

Width: 30.5 cm / 12"
Depth: 38.1 cm / 15"
Height:
 CC30+ 3.3 cm/1.3"
 CC40 3.6 cm/1.4"
 CC45+ 3.3 cm/1.3"

Lab Dimensions

Work Surface Ht: 107.9 cm / 42.5"
Handle Ht: 113.03 cm / 44.5"
Width: 101.6 cm / 40"
Depth: 72.65 cm / 28.6"
Weight: Approx.* 118 kg / 260 lbs.

* Empty weight—actual weight determined by configuration of system

CONFIGURATION OPTIONS

Chromebook Charging Systems

Standard AC Charging System

For budget-minded consumers, EarthWalk labs can be configured with AC power outlets in each storage compartment for use with each device's AC adapter. **NOTE:** When using AC adapters to charge devices' internal batteries, it is possible that all devices may not simultaneously charge. Depending on your device, this solution may require an electric timer to safely switch between groups of devices to prevent overloading the electrical circuit.

Digital AC-SMART Switching System

Higher capacity systems of 24 users or more can be configured with EarthWalk's Digital AC-SMART Switching system. This system can autosense the amount of electrical draw required by each device's AC adapter and safely switch between groups of devices to prevent overloading the electrical circuit. The digital smart switching system will monitor and continue increasing the number of devices that are being simultaneously charged to help shorten the total lab charging cycle.

HE-Z - High Efficiency Charging System

This patented system provides the most energy-efficient and **easy** approach to charging groups of devices—**no AC adapters needed!** EarthWalk's High Efficiency (HE) charging integrates a central power supply and control circuit board system to distribute simultaneous power to every device with up to 85% more energy efficiency than charging with AC Adapters. HE-Z charging cables can be easily swapped when devices are changed or updated and this system also allows multiple brands of devices to be stored and charged in one cart/station/locker.

iSync - USB Sync & Charging for iPad

Select EarthWalk's iSync package and create the perfect charging and synchronizing solution for your iPads or USB tablet devices. The iSync solution features a high efficiency central power supply system with a 16 port USB Sync/Charge circuit board. Additional iSync systems can be daisy-chained to increase system capacities. Pre-installed 30-pin or Lightning data cables in each storage compartment make iPad deployment and support super convenient.

Integrated Network Systems

Integrated Wireless Packages

EarthWalk labs can be custom configured to integrate additional wireless access points or router systems. This system can provide complete wireless access or help enhance your existing infrastructure by providing additional access as the wireless clients are moved from location to location. The system provides Ethernet uplink to the cart and any required hardwired to wireless switching component. EarthWalk can supply the wireless components or custom integrate any specific or existing electrical components your network may require.

ChromeCart Storage Bins (Optional)

Provide additional secure storage for headphones and peripherals or use to deploy your Chromebooks in different areas or classrooms. Moulded from strong, durable, industrial-grade polymers, Super-Size ChromeCart Bins are resistant to acid and alkali spills. Sturdy, one-piece construction is water-, rust- and corrosion-proof.

Bins available in blue, red or yellow.

Lab Enhancement Options

- Caster Upgrades
- ChromeCast Storage Bins
- Rack-mount Modification Kits
- Anti-Static Kit
- Enhanced Security Kits

Warranty

- Lifetime warranty on metal and structural components
- 3-year warranty on electrical components
