EarthWalk MiniMax Series
Accommodates 18 to 40 users

EarthWalk’s MiniMax™ series of mobile carts are designed to deploy the maximum number of devices when classroom space is at a minimum.

Available in 18- to 40-user models, the MiniMax series features premium, welded steel construction with a budget-minded, small footprint and optional configurations—ensuring that even your largest classes are covered and connected.

Customized Graphic Options
Door Graphics and Full Cart Wraps
Carts can be personalized showing your school logo, slogan, mascot or subject-related graphics—either one or both doors or wrap the entire cart!

SUPPORTS:
- Windows 10
- Mac
- Chrome
- iPad
- Android
• Heavy-duty, welded steel construction
• Horizontal device storage
• Key plus hasp/loop lock
• Single-plug power cord functionality
• Locking rear access door
• Textured non-skid top surface
• Supports devices up to 15.6”
• Lifetime chassis warranty

**Laptop/Netbook/Tablet Charging Systems**

**Standard AC Charging System**

Carts can be configured with AC power outlets in each storage compartment for use with each device’s AC adapter. **NOTE:** When using AC adapters to charge devices’ internal batteries, it is possible that all devices may not simultaneously charge. Depending on your device, this solution may require an electric timer to safely switch between groups of devices to prevent overloading the electrical circuit.

**Digital AC-SMART Switching System**

Higher capacity systems of 24 users or more can be configured with EarthWalk’s Digital AC-SMART Switching system. This system can autosense the amount of electrical draw required by each device’s AC adapter and safely switch between groups of devices to prevent overloading the electrical circuit. The digital smart switching system will monitor and continue increasing the number of devices that are being simultaneously charged to help shorten the total lab charging cycle.

**Pre-Wired Solutions for USB Type-C**

USB-C is the latest standard in charging portable devices. We can pre-wire your carts and stations with our premium 45-watt USB-C PD adapters or you can supply us with your existing AC adapters. Literally plug-n-play as soon as your order is delivered. Combine USB-C with our AC-SMART system, and we can provide managed charging power for all of your devices from a single power cord, charging all your devices as quickly as possible and eliminating the worry of overloading your electrical circuits.

**HE-Z - High Efficiency Charging System**

This patented system provides the most energy-efficient and **easy** approach to charging groups of devices—**no AC adapters needed!** EarthWalk’s High Efficiency (HE) charging integrates a central power supply and control circuit board system to distribute simultaneous power to every device with up to 85% more energy efficiency than charging with AC Adapters. HE-Z charging cables can be easily swapped when devices are changed or updated and this system also allows multiple brands of devices to be stored and charged in one cart/station/locker.

**iSync - USB Sync & Charging for iPad**

EarthWalk’s iSync package creates the perfect charging and synchronizing solution for iPads or USB tablet devices. The iSync solution features a high efficiency central power supply system with a 16-port USB Sync/Charge circuit board. Additional iSync systems can be daisy-chained to increase system capacities. Pre-installed 30-pin or Lightning data cables in each storage compartment add convenience to tablet deployment.

**Lab Enhancement Options**

- Custom Cart & Door Graphics
- Caster Upgrades
- Rack-mount Modification Kits
- Anti-Static Kit
- Enhanced Security Kits
- Extended Warranty Packages

**Warranty**

- Lifetime warranty on metal and structural components
- 3 years parts & labor*

* Optional extended warranty plans available

**Configuration Options**

**Integrated Network Systems**

**Integrated Wireless Packages**

EarthWalk labs can be custom configured to integrate additional wireless access points or router systems. This system can provide complete wireless access or help enhance your existing infrastructure by providing additional access as the wireless clients are moved from location to location. The system provides Ethernet uplink to the cart and any required hardwired to wireless switching component. EarthWalk can supply the wireless components or custom integrate any specific or existing electrical components your network may require.

**Integrated Hardwired Ethernet Packages**

Provide your IT staff with the tools and convenience they need to deploy and support your mobile computer clients. Choose the EarthWalk integrated Ethernet package and deliver remote imaging or software updates to all client machines while they are secured and charging inside the cart. This system includes the installation of all network cabling and switching in the lab of your choice and features accessible network uplinks, integrated 10/100/1000 Ethernet Switching, and an available Ethernet cable in each laptop storage slot. EarthWalk can supply or custom integrate any specific or existing electrical components your network may require.
