

**ALL DAY
POWER FOR
LAPTOPS**

EarthWalk **SideKick**

The EarthWalk SideKick PowerPack is a universal battery solution designed to provide all-day operational power to laptop users. The SideKick's advanced, environmentally friendly battery chemistry provides longer laptop operation times and battery life span than traditional lithium-ion laptop batteries.

Maximize your hours of computer accessibility and the value of your laptop by increasing its run time with the SideKick PowerPack.

This 120-watt external power source can drive most brands of laptops up to three times longer than its original battery. The SideKick's usable life span is more than twice that of traditional internal laptop lithium-ion batteries.
